PROFESSIONAL SUMMARY

Final-Year ICT Undergraduate and aspiring Full-Stack Software Engineer with practical experience in MERN Stack development, RESTful APIs, JWT Authentication, and Database Management. Currently building a full-stack marketplace application while strengthening expertise in scalable web applications, software engineering, and modern JavaScript technologies. Strong problem-solving skills with a passion for developing secure and impactful digital solutions.

TECHNICAL SKILLS

- **Programming Languages:** JavaScript, Java, PHP, Python, Visual Basic .NET
- **Frontend Development:** React.js, HTML5, CSS3, JavaScript ES6+, Bootstrap, Tailwind CSS, Responsive Web Design, React Hooks
- **Backend Development:** Node.js, Express.js, PHP (OOP), RESTful APIs, Express Middleware, JWT Authentication, Authorization, API Integration
- **Database Technologies:** MongoDB, MongoDB Aggregation Framework, MySQL, SQL Querying, Database Design
- **Software Engineering:** Object-Oriented Programming, Data Structures & Algorithms, CRUD Operations, Software Testing, Debugging, Agile Development, Version Control, Web Security Fundamentals
- **Tools & Platforms:** Git, GitHub, Postman, Visual Studio Code, Visual Studio, XAMPP, Microsoft Office Suite

PROJECT EXPERIENCE

i-Computer Marketplace – MERN Stack Web Application (Ongoing)

Technologies: MongoDB, Express.js, Node.js, React.js, JWT, REST APIs, Git, Postman

- Architected and developed the backend infrastructure of a marketplace platform supporting product management, user management, and marketplace operations.
- Designed and implemented secure RESTful APIs to enable efficient communication between frontend and backend services.
- Integrated JWT-based authentication and authorization mechanisms to enhance application security and access control.
- Developed scalable CRUD functionalities and optimized MongoDB data operations for efficient storage and retrieval.

- Performed API testing, debugging, and validation using Postman to improve reliability and maintainability.
- Managed source code using Git and GitHub, following version control best practices.
- Currently developing a responsive React.js frontend to deliver a complete production-ready full-stack solution.

Finance Management System – Web Application

Technologies: PHP, MySQL, HTML, CSS, JavaScript

- Developed a database-driven financial management platform to streamline payment processing, transaction tracking, and reporting functions.
- Built secure user authentication and registration modules using PHP and MySQL.
- Designed relational database structures to improve data integrity and operational efficiency.
- Conducted testing and debugging activities to ensure application stability and reliability.
- Collaborated with team members throughout planning, development, testing, and deployment phases.

College Placement Prediction Model – Machine Learning Project

Technologies: Python, Pandas, NumPy, Scikit-learn

- Developed predictive models to forecast student placement outcomes using historical educational datasets.
- Applied Decision Tree, K-Nearest Neighbour (KNN), and Naïve Bayes algorithms for comparative analysis.
- Performed data preprocessing, cleaning, and feature engineering to improve model performance.
- Generated analytical insights and evaluation reports to support data-driven decision-making..

EDUCATION

Bachelor of Arts (Honours) in Information & Communication Technology (ICT)

South Eastern University of Sri Lanka | Final-Year Undergraduate

Relevant Coursework:

Data Structures & Algorithms, Software Engineering, Database Management Systems, Web Application Development, Object-Oriented Programming, Data Mining

CERTIFICATIONS & TRAINING

- **Full-Stack Web Development (MERN Stack)** – SKYREK Internship Program **2026 – Present**
- **Fundamentals Track** – Future Careers BRIDGE Program, SLASSCOM **2023**
- **Web Design for Beginners** – Centre for Open & Distance Learning, University of Moratuwa **2023**
- **Introduction to Cybersecurity** – Cisco Networking Academy **2023**
- **Certified Ethical Hacker Training Program** – Marstech **2023**
- **Multimedia & Computer Science** – Mahmoud Academy **2018**

PROFESSIONAL EXPERIENCE

Owner – NEW ONLINE MART (Retail & Wholesale Clothing Business) **2022 – Present**

- Founded and manage a customer-focused retail and wholesale clothing business serving clients through digital sales channels.
- Oversee inventory management, customer engagement, pricing strategies, order fulfillment, and business operations.
- Built long-term customer relationships through responsive service and personalized support.
- Developed leadership, business management, communication, negotiation, and problem-solving skills.

Assistant Accountant – Matara Grand Mosque **2023**

- Assisted in maintaining financial records, processing transactions, and preparing financial documentation.
- Supported day-to-day accounting operations and ensured record accuracy.

ADDITIONAL EXPERIENCE

Teacher (Part-time) – Institute of Ma'hadur Rasiqheen **2023 – 2026**

Islamic Studies & Sinhala Teacher – Al Badhr Islamic Institute, Ampara **2022 – 2023**

Islamic Studies Teacher – Institute of Zaid Bin Sabith, Galle **2021 – 2022**

Customer Experience Associate – Fashion Bug, Matara **2019 – 2021**

Customer Experience Associate – Cool Planet, Colombo **2018 – 2019**

CORE COMPETENCIES

Full-Stack Development | MERN Stack | REST API Development | Authentication & Authorization | Database Design | Software Testing | Debugging | Object-Oriented Programming | Data Structures & Algorithms | Agile Development | Problem Solving | Team Collaboration | Communication Skills | Leadership | Adaptability

LANGUAGE PROFICIENCY

Tamil (Native) | **Sinhala** (Native) | **English** (Professional working proficiency) | **Arabic** (Advanced)
